

**American Rivers/National Hydropower Association Workshop: *Climate Change and Hydropower Management: Is Existing Science Useful Yet?***

On Thursday, January 28th, 2010, American Rivers and the National Hydropower Association will host a workshop at the Washington Court Hotel in Washington, DC. This workshop, **Climate Change and Hydropower Management: Is Existing Science Useful Yet?**, will be an important opportunity to discuss hydropower and climate change with members of the hydropower industry and the conservation community.

Join top climate scientists, FERC, resource agencies, industry representatives, and conservation groups to learn more about and discuss climate change science and related issues. Session topics include:

- An Overview of Science and Regional Impacts
- Models and Approaches
- Using Climate Projections in Decision-Making, and Dealing with Uncertainty
- Climate Change Science and Hydropower Management: Starting the Dialogue

**The Keynote Speaker** is Roger Ballentine – President, Green Strategies, Inc., Former Chairman of the White House Climate Change Task Force and Deputy Assistant to President Clinton for Environmental Initiatives, Lecturer on Law at the Harvard Law School and a Senior Fellow at the Progressive Policy Institute in Washington D.C.

**Other Workshop Presenters** include:

Gregg Carrington, Managing Director, Energy Resources, Chelan County PUD  
Daniel Cayan, Research Meteorologist, Scripps Institute of Oceanography  
David Purkey, Water Group Leader, Stockholm Environment Institute-US  
Richard Roos-Collins, Director of Legal Services, Natural Heritage Institute  
Joshua Viers, UC Davis Center for Watershed Sciences  
David Yates, National Center for Atmospheric Research (NCAR)  
Tim Welch, Chief, Hydropower West Branch 2, FERC  
Kenneth Westrick, CEO, 3TierRenewable Energy and Information Services

More information about speakers and the agenda will be available at [www.hydro.org](http://www.hydro.org) and [www.americanrivers.org](http://www.americanrivers.org). The cost for this workshop is \$75, with lunch included. To reserve your spot or to learn more about sponsorship opportunities, please email Kathryn Steele at [Kathryn@hydro.org](mailto:Kathryn@hydro.org). To book your room at the Washington Court Hotel, please call 202-628-2100 (Block under “Climate Change Workshop”). Please book your room by **Thursday, January 7th, 2010** to receive the block rate.

The National Hydropower Association and American Rivers would like to thank [Brookfield Renewable Power](#) and the Cox Family Foundation, leadership sponsors of this event.
