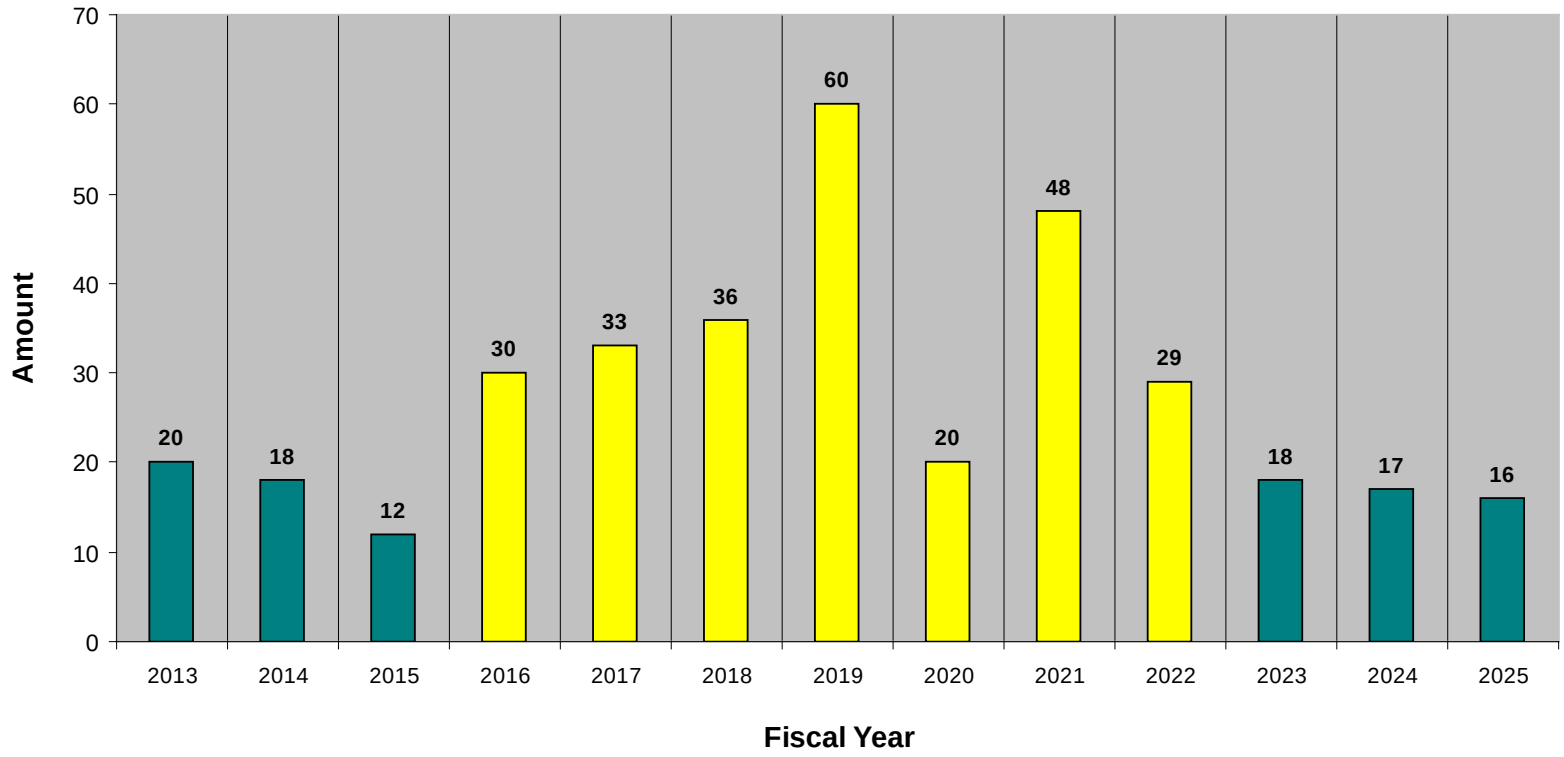
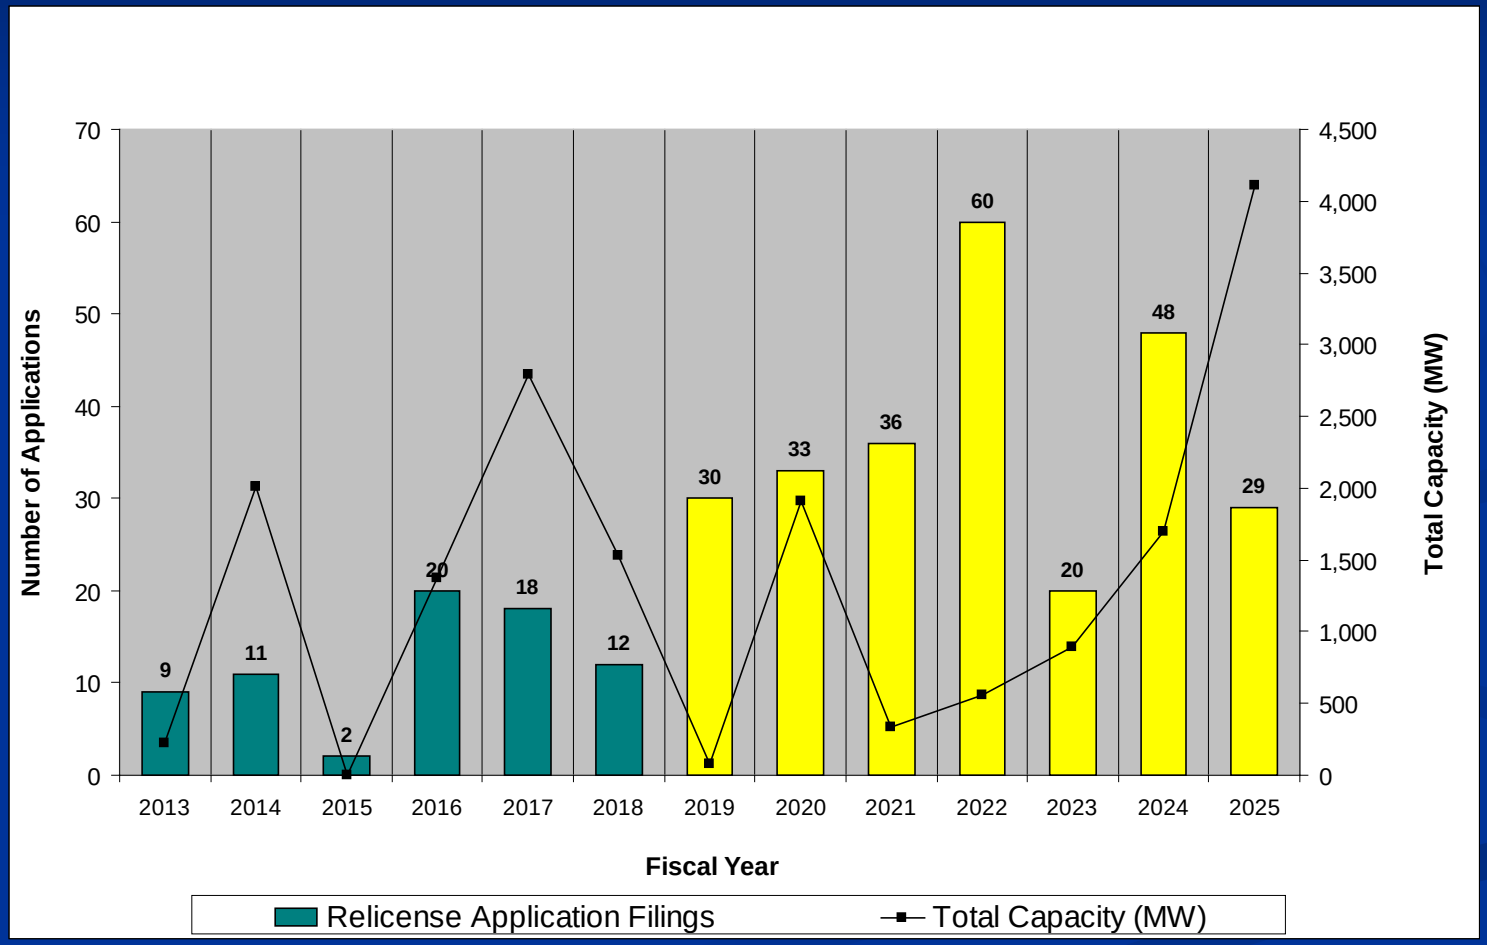
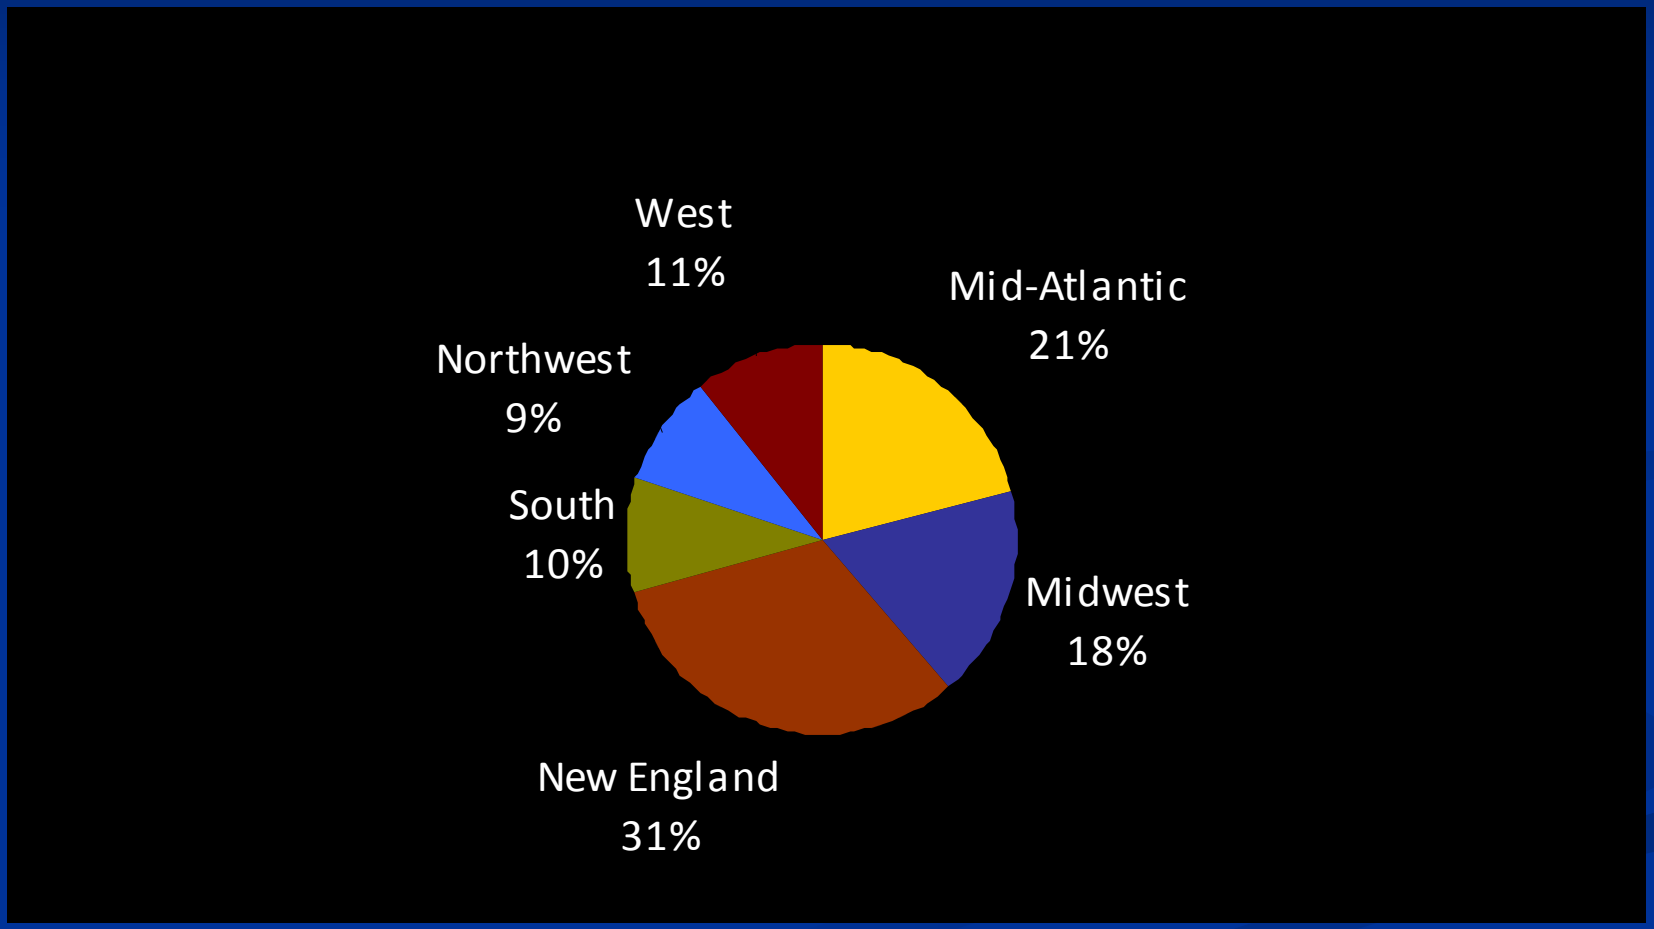
# Upcoming Relicensings
## Based on start of ILP – NOI/PAD filings



# Upcoming Relicensing Activity
## Based on projected application filing date



# Relicense Applications by Region FY 2013-2028



# Balancing the work

## Applications that will get processed "out of region"

- West Branch - Connecticut River and Holyoke Canal Projects (19 – VT, MA, NH) and Mongaup River Projects (3 - NY)
- Northwest Branch - Androscoggin and Little Androscoggin River Projects (16 – ME, NH), Winooski River Projects (5 - VT), and Goose River Project (ME)
- South Branch - Saco River Projects (3 - ME), Penobscot River Projects (5 - ME), Contoocook River Projects (3 - NH), Shawmut Project (ME), Black River Projects (2 - NY), Shenandoah River Projects (4 - VA), Mohawk River Projects (2 - NY), and Yaleville Project (NY)

# Relicensing Today vs Class of '93

- 256 projects over seven-year period vs about 150 projects with same filing date
- Three process options vs one process – many projects could be TLP candidates
- More applications for new projects today – priority on new generation
- More distributed decision-making – court cases result in mandatory conditions being more prominent than 10(j)
