

FOR IMMEDIATE RELEASE

ZTZ Services International Announces Ribbon Cutting, Reception and Open House at the new World Headquarters in North Miami, Florida.

North Miami, FL – November 27, 2023 – ZTZ Services International announces the new World Headquarters ribbon cutting, reception, and open house on Friday, December 15, 2023. The ribbon cutting is at 1:00 pm. The open house will follow the ribbon cutting and last until 3:00 pm.

The event will take place at the new ZTZ World Headquarters, 655 NW 128th Street.

The new ZTZ World Headquarters provides modern conference space for meetings and classroom training, space for additional production lines to meet the growing demand for its products, and a secure space for a planned Monitoring Operations Center serving clients in the electric utility industry.

Mr. Daniel Berler, ZTZ's CEO says, "On December 15th, we will launch a new building not just with modern facilities but as a launch pad for further growth well into the future. This new facility includes ample parking, is handicap accessible, and is well located near two international airports, making it easier for our clients."

About ZTZ Services International

ZTZ is the world leader for on-line continuous diagnostic monitoring for electric utility equipment- primarily high-voltage substation transformers and related high-value transmission assets. ZTZ serves utility clients in North America, Europe, China, and former Soviet states. In addition to traditional electric utility clients, ZTZ also serves many renewables (solar & wind) operators and operators of data centers. ZTZ systems provide the same benefits to all- reduction of failure risk. Transformer failure interrupts electric power to customers, can cause vast environmental damage, and cost operators millions of Dollars in unnecessary replacements.
